

FINALLY!

an affordable way to protect your bottom line.

Until now, protecting all of your locations from power outages was a significant investment. But now, Total Energy Solutions has the answer you've been waiting for.

Quick Connect Docking Panels

One of these affordable panels is installed at each of your locations. Generators you own are stored at our secure facilities. We dispatch and connect your generators to your locations when needed.

Benefits:

Cam-Lok connections - allow for fast generator hook up without the need for an expensive electrician.

You own your generator fleet - eliminates the search for hard to find rentals in an emergency.

Protect all of your locations - with a minimal investment.

Service you can rely on - 24/7/365 customer service and support.

Most importantly, you are able to continue to operate your business and protect your bottom line.

Quick Connect Docking Panel
