Generator Inspections

by factory-trained technicians

At Total Energy Solutions, we pride ourselves on delivering

“Service Beyond Expectations”

In order to deliver on that promise, we have built a team of experienced, factory-trained generator technicians who are specifically trained in the correct installation and service of all brands of generators.

We inspect:

- All brands of generators.
- Units from 13kW to 150kW:
- Air Cooled \$250
- Liquid Cooled \$350
- Units over 150kW Call for pricing

Inspections include:

- Generator functionality assessment.
- Transfer switch functionality assessment.
- Installation and safety assessment with recommended corrections as needed.
- Service and/or repair recommendations.
