## More Than An Oil Change

Total Energy Solutions' **21-Point Preventative Maintenance Plan** is more than a simple oil change. Our factory-trained service technicians perform a comprehensive list of preventative maintenance checks, and service all systems within your generator to make sure that it is ready when you need it.

### What we do:

- Check for and install updated software
- Replace crankcase oil and filters
- Inspect air intake system
- Clean batteries, connectors and cables
- Check exhaust system
- Inspect hoses, belts, clamps, and fuel lines
- Check antifreeze protection
- Inspect wiring AC and DC
- Check operation of all automatic transfer switches
- Clean exterior and interior of unit and transfer switches
- Plus more...

For a complete list of what is included in our plan visit [www.totalenergysolutions.com](http://www.totalenergysolutions.com) or call the office nearest you.
